Education

Private University of Fez: Computer Engineering

Fès, Fès/Mèknas

Professional Experience

Dimensional Chain Calculation Tool - Capgemini

Casablanca

Feb 2025 – Jul 2025

- Developed an ASP.NET MVC web app to automate dimensional chain tolerance calculations.
- Implemented real-time gap analysis, auto-adjust algorithms, and PDF reporting.
- Enhanced engineering accuracy and reduced manual errors in mechanical design.

IT Intern – Aramex

Casablanca

Jun 2023 – Aug 2023

- Maintained servers and resolved hardware/software issues across 100+ systems and devices.
- Managed employee accounts via Active Directory.
- Oversaw cctv installation on warehouse

IT Specialist & Graphic Designer – Belarome

Fes

Aug 2022 – Oct 2023

- Designed product packaging and implemented IT solutions.
- Ensured daily operational efficiency and cross-device connectivity.

Software Developer Intern – SYMOLIA

Casablanca

Jun 2024 – Sep 2024

- Built a full-stack leave management system using Angular and Spring Boot.
- Implemented role-based access (Admin, Manager, Employee).
- Automated leave requests, balance tracking, and theming.

UI/UX & Interactive Design – The Spectrum

Casablanca

Des 2023 – Jan 2025

- Led the creation of interactive mockups and animated UI concepts for marketing campaigns
- Directed collaboration between design and product teams to improve user journeys and visual identity
- Oversaw the delivery of high-fidelity prototypes for both web and mobile platforms

Project Experience

AI Moroccan Sign Language Translator

- Developed an AI-powered Android app to translate Moroccan dialect and sign language using CNNs (EfficientNetB0).
- Applied image recognition, NLP, and gesture tracking to bridge communication for the deaf-mute community.

Educational RPG Game

Mar 2022 – Apr 2022

- Built a 2D RPG promoting environmental awareness; players fight "trash monsters" to clean a village.
- Designed pixel-art assets and implemented basic enemy AI with varied attack patterns.

Interactive Online Portfolio

jun 2022 – present

- Built an interactive online portfolio showcasing full-stack, AI, and UI/UX projects.
- Integrated 3D visuals, responsive layouts, and live demos for professional presentation.
